

IN-BETWEEN  
**KINGSLEY GUNATILLAKE**

24.01.19 - 07.02.19

My expression is to visualize the moment prior to the confrontation of dual images of uncertainty and contradiction. My exercise is to use these images and structures, which take different modifications at times from hard and rough to soft and delicate. My joy is to let this process take place either by effort or effortlessly; creating or controlling a situation rather than just responding to it after it has happened. With different textures that emerged from this process, paintings are conceived, projecting sexuality both due to fervent effort and by letting nature take its course.
